Contents

Preface ix
List of participants xi

1. A cladistic phylogeny of the genus *Littorina* (Gastropoda): implications for evolution of reproductive strategies and for classification
   by D. G. Reid 1
2. Distribution of the species of rough periwinkle (*Littorina*) in Great Britain
   by P. J. Mill and J. Grahame 21
3. Estimating the phylogeny of the mollusc *Littorina saxatilis* (Olivi) from enzyme data: methodological considerations
   by P. Sundberg, A. J. Knight, R. D. Ward and K. Johannesson 29
4. Are the opposing selection pressures on exposed and protected shores sufficient to maintain genetic differentiation between gastropod populations with high intermigration rates?
   by E. G. Boulding 41
5. Biochemical genetic variation in the genus *Littorina* (Prosobranchia: Mollusca)
   by R. D. Ward 53
6. *Littorina neglecta* Bean, a morphological form within the variable species *Littorina saxatilus* (Olivi)?
   by B. Johannesson and K. Johannesson 71
7. Genetic variation within *Littorina saxatilis* (Olivi) and *Littorina neglecta* Bean: is *L. neglecta* a good species?
   by K. Johannesson and B. Johannesson 89
8. Rapid colonization of Belgian breakwaters by the direct developer, *Littorina saxatilis* (Olivi) (Prosobranchia, Mollusca)
   by K. Johannesson and T. Warmoes 99
9. Hybridisation in the *Littorina saxatilis* species complex (Prosobranchia: Mollusca)
   by T. Warwick, A. J. Knight and R. D. Ward 109
10. Scraping a living: a review of littorinid grazing
    by T. A. Norton, S. J. Hawkins, N. L. Manley, G. A. Williams and D. C. Watson ... 117
11. *Littorina mariae* – a factor structuring low shore communities?
    by G. A. Williams 139
12. Field observations on the feeding habits of *Littorina scutulata* Gould and *L. sitkana* Philippi (Gastropoda, Prosobranchia) of southern Vancouver Island (British Columbia, Canada)
    by D. Voltolina and C. F. Sacchi 147
13. Effect of crab effluent and scent of damaged conspecifics on feeding, growth, and shell morphology of the Atlantic dogwhelk *Nucella lapillus*
    by A. R. Palmer 155
14. The relationship between flat periwinkle life histories and digenean infections
    by G. A. Williams and T. J. Brailsford 183
15. Feeding behaviour in *Littorina littorea*: a study of the effects of ingestive conditioning and previous dietary history on food preference and rates of consumption
    by D. W. Imrie, C. R. McCrohan and S. J. Hawkins 191

16. Shell microstructure and mineralogy of the Littorinidae: ecological and evolutionary significance
by J. D. Taylor and D. G. Reid 199
17. Differences in shell properties between morphs of *Littoraria pallescens*
by L. M. Cook 217
18. Adaptive and non-adaptive variation in two species of rough periwinkle (*Littorina*) on British shores
by J. Grahame, P. J. Mill and A. C. Brown 223
19. Distribution, abundance and shell morphology of *Littorina saxatilis* (Olivi) and *Littorina arcana* Hannaford Ellis at Robin Hood's Bay, North Yorkshire
by C. Dytham, J. Grahame and P. J. Mill 233
20. Thermal tolerance, evaporative water loss, air–water oxygen consumption and zonation of intertidal prosobranchs: a new synthesis
by R. F. McMahon 241
21. Mate discrimination in *Littorina littorea* (*L.*) and *L. saxatilis* (Olivi) (Mollusca: Prosobranchia)
by M. Saur 261
22. Epilogue
by D. G. Raffaelli 271

Index of genera and species 275
General index 279
